

ABOUT ME

Motivated and self-driven Software Engineer pursuing an M.Sc. in Computer Science at the Academic College of Tel Aviv–Yaffo (MTA), with strong interests in web development, algorithms, and data science. Eager to apply technical skills and grow professionally in a challenging development role.

EDUCATION

- 2022-2025 **B.Sc. in Computer Science** at Academic College of Tel-Aviv-Yaffo (MTA). **Expected GPA: 80.**
- 2015-2017 **Software Engineering Studies** (15 matriculation credit points), Davidson Institute of Science Education, Weizmann Institute of Science, Rehovot

HIGHLIGHTS

- 2025 **Accepted for publication at the AI-ED 2025 Conference (Italy)** - Developed an AI-driven engagement detection, quizzes, and analytics system to enhance learner focus and provide educators with actionable feedback.
- 2019 Developed a medical documentation tool using JavaScript during military service
Streamlined daily patient registration as a medic, significantly improving documentation efficiency.

PERSONAL PROJECTS

- 2015-2025
- **News Aggregator:** Full-stack news aggregation site pulling data from sources like BBC, NYT, Ynet, and Haaretz. Features dynamic loading, refresh functionality, and responsive card/list layouts. Showcases API integration and modern UI/UX design.
 - **MNIST Digit Recognition:** Developed a browser-based digit recognition tool using ONNX and JavaScript. Demonstrates machine learning integration and frontend deployment.
 - **Guess the Sub-Reddit:** Built an interactive guessing game using React, emphasizing component-based architecture, user interaction, and game logic design.
 - **Graphs Visualization Tool:** Developed as part of an academic algorithms course, this tool visualizes prerequisite and course dependency graphs. Highlights include data parsing, interactive graph rendering, and real-time data visualization.
 - **IPTV channel reader** Implemented a client-side reader to load and display streaming data. Demonstrates skills in handling external data feeds and DOM manipulation.

OTHER

- 2017 Achieved **2nd place** in a regional high school hackathon, demonstrating creativity, teamwork, and rapid prototyping skills.
- 2016-2021 Mentored children's robotics teams as a group instructor in the **FIRST LEGO League**, promoting hands-on learning, collaboration, and creative problem-solving.

SKILLS

High-level Languages:

- Java
- C++
- Python
- VBA
- Advanced JavaScript (Async programming and callback functions)
- Node.js, React, MongoDB, and Express

Spoken Languages:

- Hebrew – Native
- English – Native level proficiency
